

ABOUT

This innovative Pipe Grip will pull 10mm, 15mm and 22mm pipe due to its stepped threaded design.

The 10-22mm Pipe Grip works by screwing the bottom end of the attachment onto a Cable Rod, and the other end into your pipe. Once the pipe has been securely fastened to the end of your attachment, pull or push the pipe to the desired location.

APPLICATION

- Pull 10mm, 15mm or 22mm plastic pipe
