

## ABOUT

The new & improved Flat Rat 10m features an ergonomic case with sloped handle for a smooth spooling action. The high-quality flat material allows greater control while routing, and the AXM™ female fitting gives more tensile strength with added Super Rod connectivity.

Connect a steel domed bullet with eyelet, enabling you to connect cable. This attachment works perfectly with the Super Magnet.

## APPLICATION

- Route • Retrieve • Bend around corners
- Perfect for under floors & behind walls
