

ABOUT

The Flexi Drill Kit is a cable routing tool that allows the user to drill through noggins, joists and wooden obstructions, due to the rod's unique flexibility. The 10mm auger drill bit fits onto the shaft that makes up this kit, allowing you to create 10mm holes in wooden joists and noggins before routing/retrieving cable.

APPLICATION

• Drill • Route • Retrieve

SPECIFICATION

Product Name	10mm Drill Bit
Item Code	SRFDB10
Length	115mm
Attachments	N/A

CONTENTS

1 x High Speed Steel Drill Bit

Length: 115mm

Thread: Twist Style, Auger Drill Bit

Dia: 10mm
