

## SPECIFICATION

<b>Product Name</b>	Glo Glider
<b>Item Code</b>	SRGLIDER-P
<b>Length</b>	160mm

## ABOUT

- Our lightweight Glo Glider makes it even easier to glide over uneven surfaces.
- The Glider is made out of a luminescent material, so you can easily see where your rods are going.
- Compatible with all Super Rod branded rod kits.
- The Glo Glider helps to successfully route cable over ceiling insulation and joists and to navigate obstructions.

## CONTENTS

1x Glo Glider

## APPLICATION

Attach the Glider to your rod and manoeuvre over the uneven surface.

The Glider helps you by skimming over uneven surfaces you may encounter.

You can see where your rods are going thanks to the glow in the dark ability of the Glider.

100% compatible with the rest of your Super Rod system.

The Glo Glider absorbs light when exposed to it and then discharges in the dark.

“Not only does this smooth out the roughest of cable runs, you can also see

where you are going”

TOM - BLAENAVON

- **Route**
- **Skip over obstructions**
- **Illuminates**
