## V7 WIRELESS INSPECTION CAMERA

The smarter way to inspect underground

Scan for more information

### PROBLEM SOLVED

Navigate ductwork and capture live footage, photos & sound to your device.

## V7 WIRELESS INSPECTION CAMERA 30M

SRCAMV7W1

Designed for short-distance duct inspections up to 30 metres. Mounted on a semi-rigid cable, it can be easily pushed through ductwork to deliver live video, record footage, and capture photos directly to a phone or tablet. Ideal for underground and commercial duct systems, it enables accurate diagnostics, layout mapping, and documentation without the need for excavation or dismantling.

- Detects blockages and obstructions
- Identifies damage such as cracks, corrosion, or leaks
- Verifies condition during maintenance checks
- Improves reporting with timestamped media, sound recording, and notes
- Enhances safety - no need to enter confined or hazardous spaces
- Saves time and money by pinpointing issues without invasive procedures
